SKILLS

- Teamwork
- Wireframing
- Responsive Design
- Prototyping
- Database Integration
- Collaboration
- Debugging
- Version Control
- Performance Optimization
- Problem Solving

TECHNOLOGY

- React.JS
- Vue.JS
- Next.JS
- SQL
- AWS
- Git & Github Actions
- Python
- NoSQL (MongoDB)
- JavaScript
- TypeScript
- Figma
- Node.JS & Express.JS

LANGUAGE

- English
- German

AWARDS

- Abuakwa State College Best Student Award
- Ghana National Scholarship for University Students

HOBBIES

- Volunteering
- Music
- Reading
- Traveling
- Video gaming

PROFESSIONAL EXPERIENCE

February, 2022 - November 2023

Frontend Developer

4Evapack JD Ltd | Remote

- Transformed design ideas from wireframes and prototypes to dynamic user interfaces, ensuring our digital solutions were captivating and engaging.
- Designed and implemented innovative and scalable frontend architectures for complex web applications.
- Keept pace with the latest advancements in frontend technologies and methodologies, positioning our products at the forefront of the industry.
- Proactively gathered user feedback to iterate and enhance our application interfaces, utilizing analytics to guide design decisions.
- Optimized website performance for speed and efficiency, focusing on minimizing page load times and enhancing overall responsiveness.

July, 2021 - December, 20221

Frontend Developer (Internship)

Heiland GmbH | Germany

- Debugged and troubleshot websites, identifying and resolving any issues efficiently.
- Employed version control systems such as Git and Subversion to collaborate on projects and manage code
- Developed prototypes and mockups for new features, enhancing UX and UI design.
- Develop and maintain reusable UI components and design systems to ensure code consistency and maintainability.
- Actively participated in back-end development tasks and successfully integrated front-end application with back-end services.

January, 2021 - March, 2021

Web Developer (Mandatory Internship)

World Simplified UG | Germany

- Translated complex design requirements into interactive user experiences to promote customer engagement and drive web traffic.
- Collaborated with other developers on architectural design, code reviews and retrospectives.
- Built a fault-tolerant and scalable application by writing clean, maintainable, and testable code
- Translated wireframes into the high quality code and built reusable components (used Storybook.js to build components in isolation)
- Cooperated with the team and customer representatives to plan projects.

EDUCATION

Masters in Water Engineering

Technical University Berlin

Web Development

Codeworks (Bootcamp)

MERN Stack

John Smilga
